We are proud to present the new edition 2011

Very important this year! Only 1 leg per day

You can fly and report only 1 leg with the same take off date

- **IMPORTANT** : Remember you **MUST** check regularly you're connected to IVAN, to avoid problems later cause flight was done disconnected
- All legs **MUST** be flown **online**, with real weather
- Please make sure the aircraft you choose is suitable (take care of the runway length, restrictions, ...). **Prepare** your flights !
- All legs have to be flown in the published order

- ATC guidance is not necessary all the way
- Flights must be flown in **realtime** mode (1x sim rate, no accelerated mode allowed). Military and supersonic aircrafts (e.g F18, Concorde, ...) are forbidden !
- A maximum disconnection of 20 minutes will be accepted due to FS or PC crash reasons
- Please pay attention to your flight plans. Flight plans with wrong departure/arrival airfields will **NOT** be accepted
- Report legs in UTC time and 24 hours format
- Maximum cruise level FL430
- Maximum speed M0.85
- Include as remark in your flight plan RMK/LHWT11 LEGxx (Replace 'xx' with the leg number) **It's mandatory !**

Special Note

Since this is a long haul tour, you understand that these legs may be longer than 8 hours of flight. Sandbagging will NOT be allowed (please check [here](#) for the suspension table). However, we will accept you to disconnect for **20 minutes** - maximum - for dinner or other needs, in **uncontrolled** airspace only !

Any sandbagger will be excluded from participation to the Long Haul World Tour !

-
- Completed flight must be reported after each leg using the LHWT11 report form, [click here](#)
 - You can see an example of a report [here](#)
 - For any information, questions or useful tips use the [forum](#)
 - If you are ready according to these many words, [here](#) is the gate to the new challenge
